

IPCR - PDF Export - Relevant reports Ukraine crisis - Ukraine's list of urgent energy equipment and material needs

Title: Ukraine's list of urgent energy equipment and material needs

Description: Following the IPCR roundtable on Ukraine on 21 January, please find attached the Ukrainian Ministry of Energy's list of urgent energy equipment and material needs, particularly the critical shortage of replacement transformers. Ukrainian authorities have highlighted the growing urgency of this demand, with detailed specifications for the requested transformers included. The same list has also been shared via the G7+ network.

Member States are encouraged to channel their support through the UCPM/ERCC and, if making donations, to keep the IPCR Secretariat and Presidency informed.

For further technical inquiries, please contact Ukraine's rapid response unit at: rapidresponse.energy@mev.gov.ua
